

Our Pledge to End Poverty in the USA

We believe...

1. Each person has something of value to offer our world.
2. Any time any person rises out of poverty that's a win for us all.
3. Each person deserves to be listened to, understood, respected, and valued.
4. Each low-income person is on a unique pathway out of poverty.
5. Ending welfare benefits is NOT the same as ending poverty.
6. Providing welfare benefits is NOT the same as ending poverty.
7. Poverty ends when people don't need those benefits any more.
8. Ending poverty requires the creative good will of many people.
9. If you help another person get out of poverty, you should be rewarded.
10. We must make room for creative ideas that can be tested on a small scale.
11. Solutions to poverty should be measured by how well they work.
12. Solutions that work should be scaled up as appropriate.

I pledge to help end poverty.
