

A Breakthrough Solution to Poverty

POVERTY LINE

Imagine you are a family living below the poverty line

Your path forward is blocked ...

Wealth

When middle class people work harder, they make more money. As a poor family, when you work harder, you end up with less.

THE CANYON THAT SEPARATES THE POOR FROM THE MIDDLE CLASS

But what if someone helped you...

#1 They respect you

#2 They listen to you in order to understand where you're coming from

POVERTY LINE

#3 They work with you to help you identify your own unique best path out of poverty

#4 They invest whatever it takes to empower you to get out of poverty forever

#5 They advocate for you and don't leave you stranded in the canyon that separates the poor from the middle class. Instead, they give you tools to cross that canyon.

In short, they stay with you until you cross the finish line ...

We'll call this person a Mentor Investor

Everyone wins!

The family that was living in poverty wins. They are no longer in poverty!

The government (or taxpayer) wins—no longer needing to pay welfare benefits or other costs of poverty.

And here's how the Mentor Investor wins: The taxes this family will now be paying are diverted to the Mentor Investor.

How we do this...

(A) Help us make a documentary to show this can be done ...

(B) Then let's get the government to do a pilot program.

(C) Then we roll it out nationwide so this becomes an option available to everyone living in poverty.

You can help by reading Dwight Clough's book: Rethinking Our War on Poverty
